

WORLD ANIMAL DAY 2022

WHAT COLOR IS YOUR FAVORITE PASSERINE? AMERICAN PASSERINES

GOLDFINCH

found across most of North America. It inhabits weedy fields, open floodplains, and other overgrown areas.

BLUE JAY

found in most of the eastern and central United States. It inhabits all kinds of forests and is common in urban and suburban areas..

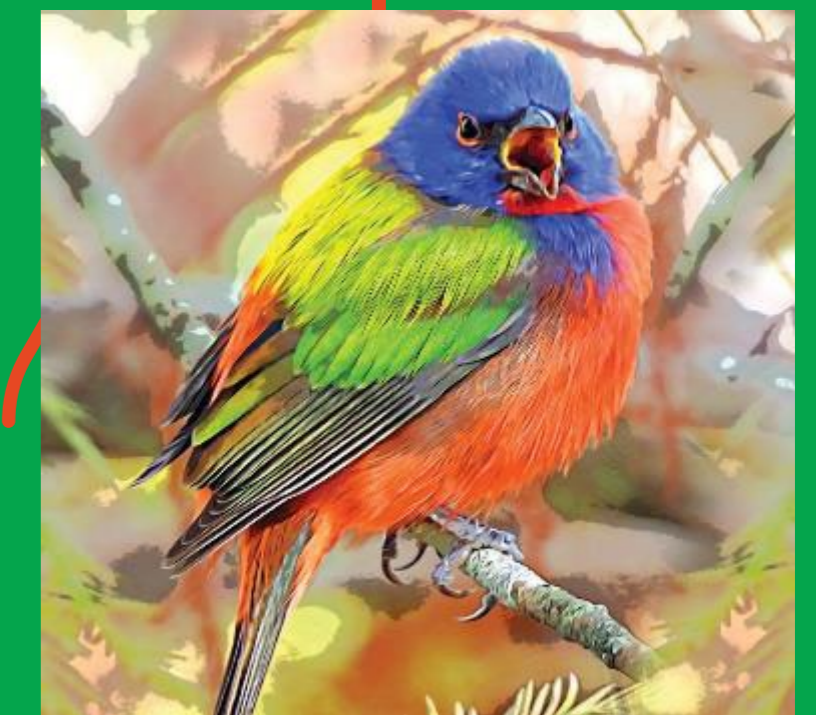

ROBIN

found year-round in the continental United States, and some migrate north to spend summers in Alaska.

CARDINALS

found throughout the eastern United States and on south into Mexico and Central America.

PAINTED BUNTING

native to North America. It inhabits thickets, woodland edges, and brushy areas.
